E-Publishing Analyst
Apex Solution Pvt Ltd
12/2023 – 07/2024 | Guntur, Andhra Pradesh

- Converted PDF magazines into structured HTML articles by performing tasks such as zoning, image editing, image mapping, and content cleanup.
- Logged into internal systems to perform article zoning based on client-specific templates and style guides.
- Edited and optimized images using Adobe Photoshop by adjusting resolution, size, and placement to align with publishing standards.
- Conducted I-mapping by cross-verifying content and associated images to ensure proper alignment and logical flow.
- Performed final quality checks, identifying and fixing text alignment issues, image mismatches, and zoning errors before submission.
- Carried out clean-up tasks to resolve missing characters, formatting inconsistencies, and layout problems.
- Maintained high accuracy and visual consistency across all articles by following detailed client instructions.
- Supported publishing leads by handling high-volume content efficiently under strict deadlines.
